# VISIT BERGSTROM'S SHOW GARDEN

Dear Flower Friends:

You and your friends are invited to see our show garden of more than 4,000 tulips blooming in May, and the same beds blooming with MUMS in fall. (No obligation). However it is an opportune time to make selections for your fall and spring needs as all blooms are labeled. All tulips are imported from Hillgom, Holland, the ideal tulip growing center.

Last fall we also planted many new varieties not yet listed in bulb catalogs. Bulbs of these will be available here.

Dont fail to see the new black parrot tulips in bloom. Send for free list of new varieties.
